MFT 0210

Technical data:

Working width (approx.):	200 mm
Diameter of moulding roller (approx.):	150 mm
Driving capacity, infinitely variable (approx.):	1,3 kW
Voltage:	230/400 V, 50 Hz
Production speed:	0,8m/min – 6,4m/min
Hoppervolume:	ca. 11 l

Construction details:

- + fully automatic mode of operation
- + table-top model possible
- + suitable for small and medium capacities to 400 kg/h
- + made of stainless steel (GMP-standard)
- + easy tool change
- + speed infinitely variable
- + quick cleaning
- + favourable price of moulding rollers
- + aseptic motor
- + Heated or cooled hopper and roller

Example performance:

Product Attributes

Unit volume:	1,67865 cm ³
Unit weight:	2,18 g

Total Output

Total volume:	0,296 m ³ /h	4,93 dm ³ /min
Total weight:	384 kg/h	6,4 kg/min
Total units:	176.114 Stk/h	2935 Stk/min
